John, the paper has been through a lot of revision since the one I sent to you in August. It is now in internal peer review. Here it is again for your consideration.

Hi Glenn and Susan,  
I was on leave and missed your seminar on this paper back in July and just this morning I read through a draft manuscript authored by you two. It was a printed copy and I don't have it electronically - can you send me a current version of this? I'd like to share with some of my ISA colleagues.  
Thanks  
John
